Walking, Workout or Gym Buddies Wanted

Judy C. has a wonderful suggestion!

Judy is looking for workout, walking or gym buddies. On the 1st, I am joining Omega Fitness just down the road in Grafton. They have yoga classes that are \$5 that I would love a buddy for. Also, I see lots of people walking around, and think it would be an interesting thing to try to maybe form a walking club...Just a thought.

Please contact Judy if you are interested. Judy C jecteacher@charter.net .

Mangango Estates

On August 14th, the Board attended a public hearing at the Town Hall concerning the proposal of a 50 home subdivision which borders our property at the corner of 50 Lexington. The development is named Mangango Estates and the proposed development begins at 28 Braney Rd.

The Board expressed concerns about water pressure for fire safety, sewer lines and their capacity, sewer pump stations and wetlands.

As this was a preliminary hearing, the Board will be closely monitoring the progress with town officials and Aquarion Water. Plans are available for inspection in the Planning Dept., Municipal Office Building during regular business hours. - Laurie

Our Woodsman...Jan

As moving to North Carolina has proved to be a more lengthy process than I once believed, I have decided to resurrect "The Old Woodsman" for the time being. And then perhaps, time permitting, write occasional columns about the environments that I find myself surrounded by and new ecosystems that I encounter.

[This column](#) will be devoted to a subject that I have already covered in the past yet which remains timely: poison ivy, poison oak and poison sumac. Recognizing the plants as well as a little knowledge can provide the ability to avoid the pain and discomfort of the rash caused by any of these plants, or in some cases, if a rash has already appeared provided the ability to reduce the symptoms. Also added is some new information regarding recent experiments on the effects of increased carbon dioxide on poison ivy. - Jan the Old Woodsman
